TOWER PLAST

FACTORY INCEPTION

Tower Plast IML Factory was established in early 2020 in Badr Industrial City on a 7,000 square meters area. It represents a new project of the industrial El-Taisser Group, focusing on producing high-quality IML packaging solutions.

PURPOSE

The factory was built with the latest German technology and equipment. It aims to cater to various industrial sectors such as food, painting, chemicals, cosmetics, and healthcare. Additionally, there's a plan to participate in international exhibitions for market exposure and expansion.

QUALITY FOCUS

Tower Plast IML Factory focuses on maintaining high-quality standards in its packaging solutions. It emphasizes food safety, occupational health, and environmental conservation through international quality control systems.

The factory utilizes cutting-edge German technology for manufacturing its IML packaging solutions. This technology ensures precision, efficiency, and high quality in the production process .

With the latest equipment in place, Tower Plast IML Factory is equipped to deliver top-notch plastic materials for its packaging solutions. The selection of the best equipment enables the production of innovative and reliable products .
